COLOMBIA
•
VILLAMARIA NATURAL

Around 40 smallholder producers in the Villamaria region process their coffee at the Jamaica mill to produce this lot. The coffee consists of Colombia and Castillo varieties and is grown at 1800 masl.

65g per litre for filter styles and 1:2 brew ratio for espresso. We use 17.5 in and 35g out.

Strawberry jam acidity is followed by a rum and raisin ice cream sweetness.
